Senior Agent Magnus
Forensic Division
Government
London, SW1 1AA

Dear Agent X,

After spending months intercepting a hostile communication line we have finally managed to obtain the keys for the cipher text that you have been waiting to decrypt. Your task will be to use the grids on the next page and decrypt the cipher text, then, answer the question that it hides. We have printed the grids out on the next page along with adding the keys.

Cipher Text: HNHO2FB GUXQNGVRGWNNXKN YQERYEH ITGXBVR GGTBIUX

Good luck,

Agent Magnus
